ABOUT ME

I am a **responsible**, **positive**, and **organized** individual with **experience working in teams**. Currently, I am seeking to further develop my skills in the IT industry as a **Frontend developer** and take on new challenges to grow both in terms of **programming languages and personal abilities**. I am committed to giving my best effort to meet the required expectations and continuously improving in areas where I may be lacking.

PROFESSIONAL EXPERIENCE

Frontend Web Developer   Ago 2023 - Sep 2023.
Caravana Social, Buenos Aires,Argentina.

The page consists of a job board that provides users with the opportunity to receive training. Companies can post their job listings and offer training. It helps organizations integrate individuals with disabilities, those in challenging situations, and those recovering from problematic substance use. With a team composed of 8 people, we were able to work collaboratively with cooperation and communication.

My contributions:

- Creating registration forms with error handling and validations.
- Designing the company profile details for user viewing.
- Implementing the ability to update user profiles.

Front: React - Redux - Tailwind - Vite.

Back: Node.js - Javascript.

Data base: PostgreSQL - Sequelize.

PROJECTS

Full Stack Web Developer - Videogames   jun. 2023 - jul. 2023
Academic experience. Henry Bootcamp

An application aimed at being a video game library with the goal of staying updated with all the existing video games on the internet. It includes a search feature by name and the ability to create a card for your own video game, allowing you to edit or delete it. It also offers the option to filter all games, whether they are user-created or sourced from an external API.

Front: React - Redux
Back: Node.js - Javascript.
Data base: PostgreSQL y Sequelize.
